

## INDEX

Elucidation of roles of mast cells in the pathogenesis of refractory autoimmune and allergic diseases .....	Yoshimichi OKAYAMA et. al	1
The therapeutic development targeting HCaRG/COMMD5 for kidney injuries and kidney cancers .....	Hiroyuki MATSUDA et. al	5
Study on home medical care cooperation system for inhalation therapy using the cloud type service .....	Reiko ITO et. al	13
Construction of an application for efficient pathological diagnosis .....	Yoko NAKANISHI et. al	21
Cytotoxic effects of <i>Clostridium perfringens</i> derived from massive intravascular hemolysis cases on human peripheral blood cells .....	Ai SUZAKI et. al	25
Identification of a predictive marker for response to CHK1 inhibitor in neuroblastoma therapeutics .....	Kiyohiro ANDO et. al	28
Protein and gene expression in pulmonary artery of chronic thromboembolic pulmonary hypertension .....	Hiyo OBIKANE et. al	31
A loop-mediated isothermal amplification method detecting the Guiana extended-spectrum (GES) type $\beta$ -lactamase gene .....	Satoshi HAYAKAWA et. al	36
Preparation method and functional analysis of dedifferentiated fat cells derived from liposuction fat .....	Tomohiko KAZAMA et. al	39
Development of new therapeutic strategy and investigation of the pathogenesis of severe immunological and allergic diseases .....	Tadashi TERUI et. al	43
Microbiological control of laboratory swine and Lawsonia infection .....	Junichi FUJITA et. al	48
Lists of publication and results from Utilization in Medical Research Center .....		50
